

WORK SET: THERMAL MUG & FULL AUTOMATIC UMBRELLA

HD02-GR/US20-GR

Thermal mug (450 ml) covered with a soft touch rubber-feel surface. Made of high quality stainless steel. The double walled design keeps the content hot for a long time (6 hours with the lid closed). Vacuum insulated.

Foldable umbrella Cambridge is offering two durable mechanisms: anti-wind system (providing additional flexibility thus the umbrella does not break even by very strong gusts of wind) and the DAS mechanism (automatic opening and closing mechanism).

The set is packed in an elegant carton box.
